June, 2023

Kay Summers, Chairman
Kanawha County Solid Waste Authority
600 Slack Street
Charleston, WV 25301

Chair Summers,

The Kanawha County Comprehensive Litter and Solid Waste Control Plan update was approved at the May 24, 2023, meeting of the Solid Waste Management Board (SWMB). In accordance with §54-3-3.4.b your Authority must now submit four copies of your final plan, including one copy in an electronic format, to the SWMB no later than sixty (60) days after approval. A copy of this letter should be included in all copies of the final plan.

In addition, each authority must transmit one copy of the plan to each appropriate regional planning and development council, county commission and to the office of each appropriate county clerk, who shall file the plan in the appropriate manner and make it available for public inspection.

If you have any questions, please feel free to contact me.

Sincerely,

Carol Ann Throckmorton
Environmental Resource Specialist III

INTRODUCTION

BACKGROUND, SCOPE & PURPOSE

This document is the five-year update of the Kanawha County Comprehensive Litter and Solid Waste Control Plan. The purpose of the update is to include new information in the Comprehensive Plan, update the accomplishments of the Kanawha County Solid Waste Authority (KCSWA) and put in place a five to twenty-year work plan.

In order to provide all of the citizens of Kanawha County with efficient, safe and healthy collections, processing and disposal of all solid waste generated within Kanawha County, the Kanawha County Solid Waste Authority has developed and is adopting this Comprehensive Litter and Solid Waste Control Plan as set forth in WV Code §22C-4 and 54CSR3.

Kanawha County and the entire state are known for its natural beauty and resources. Our goal with this plan is to promote preservation through the reduction of unnecessary waste being illegally dumped or deposited into the landfill. KCSWA knows that landfills are a necessity to create a buffer between our waste and the surrounding environment. However, a large amount of material enters the landfill every day that could otherwise be recycled or reused. It is the Authority's mission to see that solid waste is properly disposed of or responsibly transformed after processing into other uses. This requires implementation of certain education, collection, processing, transportation and marketing techniques. As a solid waste manager, KCSWA sees its principal role as planning for and implementing the hierarchy of management as envisioned in State legislation.

The Authority believes that the mismanaged and uncontrolled collection, transportation, processing and disposal of domestic and commercial solid waste in Kanawha County results in:

1. A public nuisance and a clear and present danger to the citizens of Kanawha County;
2. The degradation of environmental quality including both surface and ground waters which provide essential and irreplaceable sources of domestic and industrial water supplies;
3. Harborage and breeding places for disease carrying, injurious insects, rodents and other pests injurious to the public health, safety and welfare;
4. Decreased public and private property values and results in the blight and deterioration of the natural beauty of Kanawha County; and
5. Adverse social and economic effects on its citizens.

KCSWA further finds that the proper collection, transportation, processing, recycling and disposal of solid waste are for the general welfare of the citizens. KCSWA will attempt to implement or ensure the implementation of the most cost-effective collection, transportation, processing, recycling and disposal of solid waste. The agency believes that this can only be accomplished through the active cooperation of the public and private sectors.

KCSWA would like to implement alternatives that will result in an increased number of

households properly discarding materials. The agency would also like to ensure the implementation of the most cost-effective alternative for disposing and transporting solid waste. The Authority will make every attempt to increase the amount of solid waste recycled to thus minimize the amount disposed of in landfills.

EXECUTIVE SUMMARY

This plan has been prepared with the regulations adopted by the West Virginia Solid Waste Management Board (WVSWMB) and contains updated information to better describe the solid waste management activities in Kanawha County. Copies of the plan are available upon request.

METHODOLOGY

The methodology employed by this plan is straightforward. The intentions of the plan are to:

1. Identify Kanawha County Solid Waste Authority (KCSWA) goals and objectives;
2. Identify funding strategies for these objectives;
3. Inventory existing conditions such as current population, commercial and industrial waste generated, and number of households being served by solid waste haulers, hauler territories, open dumps, waste disposal sites, urban concentrations, and geographic features;
4. Identify solid waste management problems by comparing KCSWA goals and objectives with current conditions; and
5. Recommend alternative solutions to solid waste management problems.

GOALS & OBJECTIVES

The goals and objectives of KCSWA are to develop and implement a Comprehensive Litter and Solid Waste Control Plan for Kanawha County that will protect the public health, safety, welfare and environment of its citizens for a period of 20 years by:

1. **Goal:** Reducing the volume of materials entering the waste stream by sorting and removing material which can be recycled to recover a valuable resource.

   Objective: Operate or partner with a recycling center to accept both curbside and drop-site materials for all of Kanawha County.

2. **Goal:** Providing for the safe, sanitary and cost-effective management of municipal solid waste from all residential, commercial and industrial sources in Kanawha County.

   Objective: Ensure that all households are disposing of their waste in a legal manner and are in compliance with the state's mandatory disposal law, WV Code §22C-4-10.

3. **Goal:** Reducing the degradation of both ground and surface water by cooperating in the eradication of open dumps, promiscuous discarding of materials and other deleterious methods of solid waste disposal.

Objective: Assist the Kanawha County Commission, PPOD program and the Day Report Program to clean open dumps and execute the Kanawha County Cleanups.

4. **Goal:** Increasing and improving public information/education activities related to proper municipal solid waste management and recycling.

   Objective: Be active in the community and use all forms of media to constantly reach residents and stakeholders to ensure that the county is aware of the importance and processes of recycling.

5. **Goal:** Assessing the adequacy of existing and proposed solid waste facilities and sites to cost effectively implement proper disposal.

   Objective: Assist applicants in the proper siting of solid waste facilities if environmentally acceptable sites are available.

6. **Goal:** Creating consistency across the county when it comes to recycling collection methods and accepted materials at curbside and drop-off recycling locations.

   Objective: Continually evaluate markets and trends in the recycling industry. Facilitate and lead the recycling of products in the county.

7. **Goal:** Increasing the recycling rate in Kanawha County through strategic planning and facilitation.

   Objective: Increase recycling through assistance with all stakeholders in existing collections, and start recycling in areas such as public spaces/ events, schools and public institutions, and multi-family housing.

8. **Goal:** Promoting the reuse of gently used products in lieu of recycling or sending to the landfill.

   Objective: Work closely with local non-profit organizations to ensure that targeted items are directed to non-profit organizations before a recycling facility or landfill.

9. **Goal:** Conveying to residents and all stakeholders that there is a true cost to recycling and solid waste disposal and it must be shared for a program to be sustainable.

   Objective: Make users and municipalities share the financial burden of a recycling program and only accept materials that yield value unless there is a continual subsidy to expand.

EXISTING SOLID WASTE MANAGEMENT FACILITIES

The Authority does not anticipate directly offering regular garbage collection services. Collection and processing of recyclables has historically been a major Authority activity. The City of Charleston Landfill will serve as the main waste disposal facility in Kanawha County. It has approximately 5 years of disposal life remaining based upon information contained in the 2023 West Virginia Solid Waste Management Plan. The Charleston Landfill is a "Class A" facility and is currently permitted for 24,157 tons per month.

The Kanawha County Solid Waste Authority operations a recycling program currently located at Slack Street in Charleston, WV. Materials are dropped-off at the Slack Street location then processed at a rented building located at Eden's Fork, WV, which is about seven miles away from the main location.

Kanawha County is home to three large, private recycling operations; River Metals Recycling, Capitol Recycling, RJ Recycling. The Kanawha County Solid Waste Authority operates the largest of the public recycling programs with at least four municipalities offering recycling services for their residents.

FUNDING STRATEGY

KCSWA historically received a majority of its revenue from the sale of recyclable materials. Between 2005-2010, the agency received an average of $801,941 annually from the sale of processed material. Due to the loss of a building and equipment, the KCSWA program has suffered several major setbacks. Between 2018-2022 (fiscal years), the agency only received an average of $38,764 annually from recycling sales. The agency will need to establish additional revenue streams to be combined with the following funding:

State Assessment Fees: As provided under the authority of WV Code §22C-4-30 and §22-15-11. Assessment fees are collected at the state's landfills and are divided amongst the county/regional solid waste authorities.

County Assessment Fee: WV Code §7-5-22 allows local Solid Waste Authorities to assess solid waste disposal facilities operating within their county .50¢/ton on all solid waste accepted by that facility. These fees are remitted monthly directly to the local SWAs to pay operating costs. Only those counties with disposal facilities can collect this fee.

West Virginia Solid Waste Management Board Grant: Solid Waste Management Board (SWMB) grant funds are available to any county solid waste authority that is in compliance with the requirements of WV Code §22C-4-8, 22C-4-24, and the rules promulgated thereunder.

WV DEP REAP Grants: The West Virginia Legislature made it possible to offer this program through a $1.00 fee imposed on every ton of solid waste disposed of at state landfills. Rules governing the program are under WV Code Rule 33CSR10. The funds are available to any county, municipality, public or private entity in West Virginia that is interested in planning and

implementing recycling programs, related public educational programs or need assistance in recycling market efforts.

HIERARCHY OF SOLID WASTE

KCSWA recognizes the hierarchy established in WV Code §22C-1 and gives preference to alternatives in the following order of priority:

- Source reduction;
- Recycling, reuse and resource recovery; and
- Landfilling.

ASSESSMENT OF EXISTING CONDITIONS

Population

The information supplied by the US Census Bureau, demonstrates that over the ten-year period from 2010-2020, Kanawha County population decreased by about 6.4% with a State loss of about 3.2%. Additionally, it is anticipated that over a twenty-year period from 2020-2040, the Kanawha County population will decrease by 6.6% whereas the State population will decrease by about 1.6%.

The following table illustrates the population relative to a historic average. The average population presented in the table is derived by averaging the population data for the two ten-year periods in the years 1980-2020 for each jurisdiction group (West Virginia, Kanawha County, the municipalities, and the remainder of Kanawha County).

The following table demonstrates population changes between 1980 and 2020:

Table 1: Population, 1980 – 2020

Jurisdiction	1980 Population	1990 Population	2000 Population	2010 Population	2020 Population*
West Virginia	1,949,644	1,793,477	1,808,344	1,852,994	1,793,716
Kanawha	231,414	207,619	200,073	193,063	180,745
Belle	1,621	1,421	1,259	1,260	1,094*
Cedar Grove	1,479	1,213	862	997	883*
Charleston	63,968	57,287	54,421	51,400	48,864
Chesapeake	2,364	1,896	1,643	1,554	1,378*
Clendenin	1,373	1,203	1,116	1,227	1,068*
Dunbar	9,285	8,697	8,154	7,907	7,480
East Bank	1,155	852	933	959	843*
Glasgow	1,031	908	783	905	811*
Marmet	2,196	1,879	1,693	1,503	1,330*
Nitro	8,074	6,853	6,824	7,178	6,624
Pratt	703	638	557	602	540*
St. Albans	12,402	11,194	11,567	11,044	10,861
South Charleston	15,968	13,645	13,390	13,450	13,647
Total Municipal	121,995	108,022	102,254	100,335	95,423
Remainder of County	109,419	99,579	97,615	92,728	85,322

*Actual population numbers had not been released from the US Census Bureau for the 2020 Census. Numbers provided are based on the estimated population for these towns.

Kanawha County's population has decreased steadily since 1980. Information obtained from the US Census Bureau indicates that between 1980 and 1990 Kanawha lost 10.3% of its population and between 1990 and 2000 another 3.6%, and 3.6% from 2000-2010. Table 2 demonstrates that the population of Kanawha County will most likely decrease by an estimated 6.6% from 2020 to 2040. Population projections for this table were prepared by the Bureau of Business and Economic Research (BBER), College of Business and Economics at West Virginia University. The BBER compiles these projections using average long-term birth, death, in-migration and out-migration rates. Population changes are projected to be as follows:

Table 2: Population and Waste Projections for Kanawha County 2020-2040

Kanawha County	2020	2025	2030	2035	2040*
Population Projections	180,745	175,931	173,180	170,471	168,766
Waste Projections	13,497	13,137	12,932	12,730	12,602

*Unpublished projections, Bureau of Business and Economic Research, College of Business and Economics, WVU.

Urban Concentrations

The municipalities in Kanawha County are listed above in Table 1. About one-half of the County's population lives in close proximity to the Kanawha River. The cities of Charleston, St. Albans, and South Charleston are mandated by law to provide curbside recycling programs. The number of people living in municipalities in Kanawha County total 95,423 or about 52% of the total population. Major population concentrations outside municipal limits are centered around Interstate and Appalachian Corridor Highways. The population of cities mandated to have curbside recycling programs is 73,372 or 40% of total county population.

Transportation Conditions

Kanawha County is a regional transportation hub. Three Interstates 64, 77, and 79 intersect in the Charleston area. In addition, U.S. routes 119 (corridor G), 60, and 35, and W.V. Routes 622, 601, 501, 214, 114, 94, 62, 61, 35, 25, and 4 provide secondary transportation access to Kanawha County. As a major manufacturing, chemical, and natural resource area, Kanawha County has a fully developed rail and barge transportation system as well as Yeager Airport, which serves as a local and regional transportation hub. In addition to Yeager Airport, the county is served by one private facility, Mallory Airport. AMTRAK also serves Kanawha County. Available railroads include CSX, Winifrede, Kelly's Creek and Northwestern.

Geographic Conditions

All of Kanawha County is in the Appalachian Plateau. Elevations in the County range from 542 feet above mean sea level at the intersection of the County line and the Kanawha River to 2,650 feet at the Kanawha-Raleigh boundary. In the south and east there are narrow ridge tops, steep valley walls, and very narrow valleys. The hills in the west are more rounded, and the valley walls have more gentle slopes. The major soil associations in the county are Gilpin - Upshur - Vandalia, Clymer - Gilpin - Upshur, Urban - land - Kanawha, and Clymer - Dekalb - Jefferson.

Haulers and Hauler Service Areas

Municipalities in Kanawha County that provide solid waste collection services include: Belle, Cedar Grove, Charleston, Chesapeake, Dunbar, Marmet, Nitro, Pratt, St. Albans and South Charleston. Private haulers involved in the collection of solid waste in Kanawha County include: Waste Management, Hizer Trucking Company and Mountain State Waste. For a map of hauler service areas, see Appendix C of this document.

Evaluation of Solid Waste Collection and Disposal Services

Kanawha County has 3 certified commercial solid waste haulers and ten municipalities providing collection services to their residents. According to monthly tonnage records supplied by the West Virginia Solid Waste Management Board, the majority of solid waste collected from within the

county is disposed of at the City of Charleston's Landfill. Reports also indicate waste haulers use DSI and Sycamore Landfills in Putnam County.

Curbside collection of municipal solid waste for disposal in a landfill is available to residents countywide. Curbside collection of reusable materials for recycling is theoretically available to residents in most of the towns and cities in Kanawha County. Often however, the subscriber must pay an extra monthly surcharge. Charleston, South Charleston, St. Albans, Dunbar, Belle, Marmet and provide curbside service for their residents. Bulky goods collection is available to all residents. West Virginia waste haulers are required to provide this service monthly. Although a balanced solid waste management program is available throughout the county, not all residents take advantage of the current system.

Timetable for Implementation of Plan

The following activities and/or programs will be completed depending upon both human and monetary resources.

Table 3: Timetable for Implementation of Plan

Plan Activity	Date Activity to be Implemented
Use Incarcerated Individuals in Open Dump Cleanup, at County Cleanup events and in a recycling facility.	Ongoing (if available)
Coordinate Dump Cleanup with Public & Private Sectors	Ongoing
Work with non-profit organizations to increase donations of reusable items.	Ongoing
Increase recycling rate and annual tonnage in the county.	Ongoing
Work with the community to raise awareness regarding proper waste disposal, donation of items and recycling practices.	Ongoing
Work closely with public and private stakeholders associated with solid waste management.	Ongoing
Encourage the expanded use of the City of Charleston compost facility and work to promote home composting in the county.	Ongoing

Cleanup and Open Dump Programs

The Authority coordinates the prioritization of dumps within the County and works with the Department of Environmental Protection Pollution Prevention and Open Dump Program (PPOD) program in cleaning up select dump sites around Kanawha County. In working with local and county organizations and volunteers in 2020, PPOD cleaned up 85 open dumps removing 90 tons of material and reclaiming 84 acres of land in Kanawha County. Since the inception of that program, to date, there have been 1,490 dumps cleaned up within the County, reclaiming 1,503 acres and removing 15,589 tons of materials. All recyclable materials were taken to an appropriate recycling facility. The Authority has and will continue to coordinate open dump cleanups with community service workers assigned to the Litter Control/Recycling Program by Kanawha County magistrates.

Volunteer Cleanup Efforts

The Authority is aware that there are numerous minor open dump sites, especially in the more rural areas of Kanawha County. However, since these dump sites appear with rapidity and become covered over with vegetation or are cleaned up by volunteers, quantifying these sites is difficult. Any attempt at quantification could only be considered a rough estimate at best. KCSWA appreciates the efforts of volunteer groups such as Adopt-A-Highway in the cleanup of open dumps and litter. The Authority will continue to partner with similar groups to eradicate the open dump issue that persists in the county.

County Wide Cleanup Campaign

Each year the Kanawha County Commission, through its Planning and Development Office, conducts cleanups in the unincorporated areas of Kanawha County. These cleanups are held in the spring and fall of the year in the eastern, western, northern and southern unincorporated areas of the County. Main collection sites are set up and trash or "solid waste" is separated from recycled metals, tires and electronics. The Planning & Development Office coordinates or collaborates with local neighborhood groups and watersheds and also contracts for services from waste haulers, a metal recycling company, electronic recycler and the DEP. The County Commission also has its employees work these events.

The WV Department of Environmental Protection organizes a yearly cleanup called the “Great Kanawha River Cleanup” held in the fall of each year which utilizes volunteers to help in removing tires and trash from the river and its banks. The Kanawha County Solid Waste Authority plans to participate in these future events and looks forward to assisting in these recycling and cleanup efforts.

Coordination of Plan with Other Entities

The Kanawha County Solid Waste Authority is and will continue to coordinate recycling source reduction education and recycling cleanup activities for the people of Kanawha County and among the various local, state and federal agencies involved with solid waste management.

The Authority has actively coordinated and communicated solid waste planning problems and issues to other Solid Waste Authorities in the county. If a new recycling center is constructed or acquired, KCSWA plans to coordinate consistency of accepted materials across the entire county to make recycling more clearly defined. The Authority would like to work with the City of Charleston and City of South Charleston to process its recyclables as well. The Authority will keep state agencies such as DEP, DOH, SWMB and PSC fully informed of its activities.

Use of Incarcerated Individuals

Although the authority is “authorized and directed” by WV Code §22C-4-22 to use these individuals for litter pickup within the limits of available funds.

These individuals will be used in the following manner:

(1) Work during Countywide cleanup campaigns.
(2) Help clean up open dump sites.
(3) Litter control along highways.

Identification of Out of County Waste

The Charleston Landfill, located in Kanawha County receives waste from several different counties, including: Boone, Clay, Fayette, Jackson, Kanawha, Lincoln, Logan, Mason, Putnam and Roane. All waste is handled in a responsible manner and no problems exist with the incoming waste. A larger issue is the waste in Kanawha County that leaves both the county and state and is deposited in Kentucky and Ohio landfills. That waste circumvents the state and county assessment fees, robbing funds from the Authority, DEP and the WV SWMB.

The Kanawha County Commission also employs two litter control officers who assist with open dumps and identification of any out-of-county waste that would be deposited illegally through such manner.

Mandatory Disposal

According to WV Code §22C-4-10, the establishment of an appropriate mandatory solid waste disposal program is the responsibility of the Solid Waste Authority and shall include methods whereby residents must prove either that they pay for garbage service or dispose of their refuse at an approved solid waste facility or in an otherwise lawful manner.

Commercial and Industrial Sources of Solid Waste Generating More Than 5 Tons/Month

KCSWA obtained a general listing of businesses; reviewed the list and identified those businesses which most likely generated more than 5 tons per month. The list contains several large hospitals, manufacturers and other places of business thought to be large waste producers.

This list of commercial sources of large amounts of waste appears in Appendix A of this document.

Conclusions

The Kanawha County Solid Waste Authority is currently at a crossroads. The agency operated a recycling facility for over 20 years but had to demolish the facility due to structural and safety issues. The recycling markets are currently at a very low point. No matter what the Authority will still promote waste reduction and proper disposal through the methods listed above. In order for our organization to sustain itself over the long-term, the board feels that the following things must be addressed:

1. The myth that refuse and recycling are a free service must be banished. There are plenty of reasons to promote recycling, but residents must change their mindset that recycling is a free service and all materials should be collected.
2. The Authority can no longer take on the burden and cost of recycling alone. Users, and specifically municipalities, must share the cost to ensure that the program can sustain itself.
3. If a new building is constructed or acquired, the agency needs to set aside funds for capital improvements so that the same issues are not repeated.
4. There must be a clear and concise message for how to properly discard waste and to recycle through a comprehensive education program.
5. The Authority must partner with private businesses and non-profit organizations to increase reuse and recycling of items.
6. The Authority needs to promote grant funds to businesses, non-profits and municipalities that can be acquired to create or expand recycling programs.
7. KCSWA needs to use state, local and federal resources more often and work cooperatively together.

RECYCLING PLAN

Recycling Goals

Kanawha County has always been a leader in recycling due to its population and historic tonnages. The Authority got out of the recycling business in 2012, but after a private venture failed, the agency resumed operations of the facility again in 2015. The building has since been demolished and KCSWA is looking for a long-term solution to recycling. The Board of Directors feel that a recycling center in Charleston is important for the long-term success of the program. The Authority rented a building just outside of Charleston in 2016 where collected materials are currently being processed. Plans are currently being developed to either construct or purchase a new recycling facility and resume full operations back in Charleston. Once a new facility is open, the Authority's goals will include:

- Banishing the myth that recycling is a free service. There are plenty of reasons to promote recycling, but residents must change their mindset that recycling is a free service and all materials should be collected.
- The Authority can no longer take on the burden and cost of recycling alone. Users, and specifically municipalities, and residents must share the cost to ensure that the program can sustain itself.
- The Authority can only accept materials that consistently yield a profit.
- There must be consistency across the county when it comes to municipal collection. This will make processing easier on the Authority and lead to lower levels of contamination.
- There must be a concerted effort to increase recycling in areas that have been neglected over the years. This includes public/private schools, large institutions, public spaces and multi-family housing.
- Accept only source separated recycling or dual stream recycling with a subsidy from municipalities.
- Work with other industries and facilities for the collection and recycling of additional materials.

Recycling Ordinance

The voters of Kanawha County approved a recycling referendum in May 1990. The original recycling plan designating an outline to accomplish the recycling goals of the county were not only mandated by West Virginia law, but also by the passage of the mentioned referendum. The Recycling Ordinance was Amended, enacted and ordained by the order of the Kanawha County Commission on May 7, 1992. A copy of that recycling ordinance can be found in Appendix B.

Quantity of Solid Waste Generated and Disposed

Since landfill operators do not collect data regarding the geographic source of the waste, and not all residents properly dispose of their waste, one can only approximate the quantity of waste generated in Kanawha County. This can be achieved by multiplying the number of county residents by the per capita generation rate of 4.91 lbs. per person per day as determined from the US EPA study entitled, Municipal Solid Waste Generation, Recycling, and Disposal in the United States: Facts and Figures of 2018. Thus it has been calculated that Kanawha County residents would generate approximately 13,497 tons of solid waste per month in 2020 and this

would decline to approximately 12,602 by 2040. This waste can be broken down into its component categories of potentially recoverable materials as identified in the table below.

Table 4: Potentially Recoverable Elements of the Waste Stream in 2020 & 2040

Material	Percent of Total Waste stream	Monthly Tonnage Projected 2020	Monthly Tonnage Projected 2040
Glass	4.2%	567	529
Metals	8.8%	1,188	1,109
Paper	23.1%	3,118	2,911
Plastics	12.2%	1,647	1,537
Textiles	8.9%	1,201	1,122
Yard Waste	12.1%	1,633	1,525
Food	21.6%	2,915	2,722

Existing Collection and Processing

Recyclables in Kanawha County are collected using two principal methods; these include the permanent drop-off site at Slack Street and curbside collection by certain municipalities. Curbside collection of recyclables occurs in Charleston, South Charleston, St. Albans, Dunbar, Belle, Marmet and Chesapeake. The Cities of Nitro and Dunbar have a drop-off location for their residents. Fifty percent of the county's population lives in these towns and cities. Recyclables from these municipalities are transported to different locations for processing (separation and baling). The Slack Street location still operates as a drop-site and transports its materials to the Edens Fork location for processing. In 2020, KCSWA transported 363.05 tons of material to their facility. This will continue until a more viable option presents itself.

Private Sector Recycling

There are a number of recycling facilities operated by the private sector. These include: River Valley Recycling, Capitol Recycling, R&J Recycling (scrap metal), TARBRO Filter Recycling (heavy duty air filters), and West Virginia Cashin Recyclables, which is just across the Kanawha County border in Nitro. Other entities that keep large quantities of material from entering the waste stream include the Habitat for Humanity ReStore, Union Mission, Salvation Army, Goodwill Industries and retail stores which send recyclables back to their hubs or central store locations.

Outside County Markets

Kanawha County is fortunate to be in reasonably close proximity to processors and end users of recyclable materials. Despite past trends, markets for PET and HDPE plastics have increased slightly over the past few years. Prices for high-grade office and computer paper remain profitable. Cardboard was always one the most profitable and abundant commodities of the Authority in the past, however it has even dropped in recent years. Aluminum is by far the most attractive recyclable in terms of value and marketability, but the Authority does not receive large

amounts of the material due to the numerous buy-back centers in the county. The following table identifies KCSWA markets for various materials.

Table 5: KCSWA Markets for Recyclable Material

Material	Markets
Aluminum Cans	RJ Recycling
Cardboard	River Valley
Newspaper	River Valley
Plastics	Scrap Management
Steel Cans	RJ Recycling
Scrap Metal	RJ Recycling

KCSWA currently process their own materials for recycling. This is being done because all material is collected and transported loosely instead of being baled.

Inside County Markets

As a business, commercial and state government center, Kanawha County is a large producer of recyclable materials. Beyond private businesses and municipalities, there is substantial recycling done by large retail locations and many other institutions. Big box stores such as Wal-Mart and Lowe's have their own recycling programs and market their materials independently. Beyond cardboard and plastics, some locations recycle organics, glass, electronics and a host of other materials. CAMC Hospitals have their own balers on site, along with a large number of manufacturing locations. The table below list public and private entities that provide a recycling service:

Table 6: Kanawha Recycling Service Providers

Organization	Materials Collected
River Valley Recycling	Scrap, automotive parts, appliances and automobiles
Capitol Recycling	Aluminum, aluminum cans, copper, brass, stainless steel
RJ Recycling	Steel scrap, copper, brass, aluminum/scrap/cans, stainless steel
KCSWA Slack Street Center	Paper, cardboard, plastics, aluminum/steel cans and scrap metal
City of Dunbar	Paper, cardboard, aluminum/steel cans (drop-site)
Town of Belle	Paper, cardboard, aluminum/steel cans (collected curbside)
City of Charleston	Paper, cardboard, aluminum/steel/bimetal cans (collected curbside)
City of Marmet	Scrap metal (collected curbside)
City of Nitro	Paper and cardboard (collected curbside)

City of St. Albans	Aluminum, mixed paper, and cardboard (collected curbside)
City of South Charleston	Paper, cardboard, aluminum/steel cans, plastics and scrap metal (collected curbside)
The ReStore (Habitat for Humanity)	Appliances, roofing, flooring, windows, lumber, lighting, heating/cooling units, tools, and other miscellaneous materials used in home construction

Information on Kanawha recyclers is from the West Virginia Recycling Directory published annually by the West Virginia Department of Environmental Protection. Many of these programs work directly with the KCSWA Slack Street Facility.

Designation of Recyclables

KCSWA has identified the following materials which can and cannot be recycled based upon the volume of the materials, the need to meet mandated goals, and existing markets for such materials.

Table 7: Accepted/Not Accepted Materials

Accepted Materials	Non-Accepted Materials
#1 & #2 Plastics	#3-#7 Plastics
Cardboard	Glass
Office Paper	Electronics
Newspaper	Tires
Aluminum Cans	
Steel Cans	
Scrap Metal	

Educational Programs

The Authority is aware that a comprehensive educational program is essential to reducing solid waste in the county; therefore, the following initiatives will be implemented in the coming years.

1. Recycling information will be handed out at public events throughout the county.
2. Assistance will be provided to Kanawha County Schools in establishing recycling programs in the schools.
3. An annual program will be created in conjunction with Earth Day and America Recycles Day.
4. KCSWA will continually provide updates and marketing information to the public through social media sites and the Authority's recently updated website.
5. KCSWA will become more active in the community through public speaking engagements, public events and waste reduction classes.
6. The Authority will continually produce and distribute educational material for all age groups.

APPENDIX A:
Commercial Establishments Generating More Than Five Tons of Solid Waste Per Month

Appendix A: Commercial Establishments Generating More Than Five Tons of Solid Waste Per Month

The following is a list of entities operating within Kanawha County that are believed to employ at least 50 individuals and whom we estimate would generate more than 5 tons of solid waste per month. Additional businesses may need to be added to this list but this is the most comprehensive list compiled, as of the updating of this plan, to our knowledge.

Aetna	Kanawha County Board of Education
Appalachian Power	Kanawha County Commission
Bayer Crop Science	Kanawha County Public Libraries
Best Buy	Kanawha Valley Regional
Brickstreet Insurance	Transportation Authority
Bridge Valley Community & Technical College	Kanawha Valley Senior Services
Buzz Food Service	Kohl's
Cabela's	Lowes
Charleston Area Medical Center	Love Lexus
Charleston Civic Center	Mardi Gras Casino & Resort
Charleston Gazette Mail	Marriott Hotels
Charleston Steel	Marshalls Department Store
Charleston Town Center Mall	Marshall University
City Holding Company	McJunkin Redman Corporation
Clay Center for the Arts & Science	Moses Auto Group

Walgreens	West Virginia State University
Walmart Stores	West Virginia University
Wells Fargo	Workforce West Virginia
West Virginia American Water	Yeager Airport
West Virginia Junior College	YMCA of Kanawha Valley
	Young's Industrial Park

APPENDIX B:
Kanawha County Amended Recycling Ordinance
May 7, 1992

92-191

KANAWHA COUNTY
AMENDED RECYCLING ORDINANCE

WHEREAS, The State of West Virginia has established the following goals for waste reduction through recycling and composting efforts; 20% reduction by January 1, 1994; 30% reduction by January 1, 2000; and 50% reduction by January 1, 2010; and,

WHEREAS, The Kanawha County Commission recognizes that the development of processing facilities and other necessary infrastructure for the handling of source separated material is necessary for the success of any recycling program; and,

WHEREAS, Public education is essential to maximize public participation and to ensure the collection of high quality recyclable materials; and,

WHEREAS, The Kanawha County Commission recognizes that procurement of recycled products is an essential element in creating markets for recyclable materials; and,

WHEREAS, It is the Policy of The State of West Virginia that to the maximum extent possible all agencies and instrumentalities of the state purchase recycled products; and,

WHEREAS, Market conditions are ever-changing; Therefore, the county recycling ordinance herein adopted is designed to give flexibility in the methods selected to accomplish the above-mentioned goals; and,

WHEREAS, Many different solutions are possible for the implementation of the mandates of the West Virginia Recycling Act of 1991; however, one method is hereby adopted that will comply with the mandates of the Act and the mandates of the county referendum in May 1990 while providing method for collection entities to use alternative plans;

THEREFORE, BE IT ORDAINED, That the title of the ordinance be "The Kanawha County Recycling Ordinance."

1.0 Definitions

.1 "Recyclable material" means a material which would otherwise become municipal, industrial or commercial solid waste, which can be source separated, collected, processed, and returned to the economic mainstream in the form of raw materials or products.

.2 "Recycling" means the source separation, collection, processing, and sale or re-use of metals, glass, paper, plastics, and other materials which would otherwise be disposed of as solid waste.

.3 "Source separate" means to separate recyclable materials from the municipal, industrial or commercial waste stream at the point of waste generation.

.4 "Co-mingled" means source separated, non-putrescible recyclable materials that have been placed in the same container at the source of generation for collection.

.5 "Designated Recyclable Materials" means those recyclable materials specified by the collection entity for separate collection in accordance with this Ordinance. Such materials may include, but not limited to, aluminum, ferrous and bimetal cans; glass containers; newspapers; office waste paper; corrugated paper; and plastic containers.

.6 "Collection Entity" means any person, partnership, corporation or other entity that provides for the collection of solid waste from residential or commercial establishments and the transportation thereof to approved disposal facilities.

2.0 RECYCLING PROGRAM

The Kanawha County Recycling Program shall consist of the following minimum requirements:

.1 Each person, partnership, corporation or other entity in the County shall separate from other solid waste at least three designated recyclable materials, as deemed appropriate by the collection entity, as named in its approved plan.

.2 The eligible list of recyclable materials includes: newspaper; office waste paper; corrugated paper; ferrous; bimetal and aluminum cans; plastic containers; glass and other materials named from time to time by regulation established pursuant to this ordinance.

.3 Each collection entity shall establish at least one scheduled day per month during which source separated materials, which may be co-mingled, are to be placed at the curbside, or similar location for collection.

.4 To maximize participation and to ensure the collection of high quality recyclable materials, each collection entity shall establish an on-going, comprehensive public information and education program, to commence at least 30 days prior to the first date of collection of recyclable materials. Such education program shall, at a minimum, effectively notify all residential, commercial, institutional and other entities participating in the program of the required methods for source separating materials, how the system will operate, the dates of collection and program incentives.

.5 Each collection entity shall accept only such solid waste from which recyclable materials named in the collection entity's plans filed with the county commission have been source separated.

.6 Each collection entity's recycling program shall provide for appropriate incentives and penalties to ensure participation in its program.

3.0 ALTERNATIVE PROGRAMS

.1 Any collection entity may propose an alternative program for a comprehensive recycling program that meets the stated waste reduction goals of this ordinance. A proposed alternative program shall be reviewed by the Kanawha County Solid Waste Authority in accordance with the regulations adopted pursuant to this ordinance with final approval to be granted by the Kanawha County Commission.

4.0 YARD WASTE MANAGEMENT

.1 Each collection entity shall file a plan with the Kanawha County Solid Waste Authority for the collection and management of yard waste. The yard waste plan will be filed by March 1, 1993.

5.0 MARKET AND INFRASTRUCTURE DEVELOPMENT

.1 The Kanawha County Solid Waste Authority shall monitor, collect information, and assist in the development of markets and infrastructure for the processing of source separated recyclable material. The KCSWA will act as a clearinghouse to disseminate information on recycling activities and shall file semi-annual written reports with the Kanawha County Commission on the established processing capacity and a plan for new capacity. The first report due under this ordinance shall be on September 1, 1992.

.2 In keeping with state policy and goals, all state agencies, instrumentalities and political sub-divisions of The State of West Virginia located in Kanawha County shall strive to achieve a recycled product mix on future purchases of 1.) 20% by December 31, 1993, and 2.) 40% by December 31, 1995.

6.0 EFFECTIVE DATE

.1 This Ordinance shall be effective from passage.

.2 Each collection entity shall file with the Kanawha County Commission its recycling program on or before October 1, 1992.

.3 Each collection entity shall implement its approved program on or before October 1, 1993, and have its program fully implemented on or before April 1, 1994.

7.0 REGULATIONS

.1 The Kanawha County Planning Commission and the Kanawha County Solid Waste Authority are authorized to promulgate reasonable rules and regulations needed to implement the Kanawha County Recycling Ordinance which shall be submitted to the Commission on or before July 6, 1992. The County Commission shall, thereafter, adopt rules and regulations by order.

Enacted and ordained by order of the Kanawha County Commission this 7th day of May, 1992.

Louis H. Bloom, President

William J. Reese, Commissioner

Henry C. Shores, Commissioner

TRUSTEE'S SALE OF VALUABLE REAL ESTATE

The undersigned Substitute Trustee, by virtue of the authority vested in him by that certain Deed of Trust dated February 12, 2016, and duly recorded in the Office of the Clerk of the County Commission of Kanawha County, West Virginia, in Book No. 4125, at Page 600, Adam L Bryan did convey unto Douglas McElwee, Trustee(s), certain real property described in said Deed of Trust; and the beneficiary has elected to appoint Seneca Trustees, Inc. as Substitute Trustee by a Substitution of Trustee dated July 22, 2021 and recorded in the aforesaid Clerk's office; and default having been made under the aforementioned Deed of Trust, and the undersigned Substitute Trustee having been instructed by Rocket Mortgage, LLC f/k/a Quicken Loans, LLC f/k/a Quicken Loans Inc. to foreclose thereunder, will offer for sale at public auction at the front door of the Kanawha County Courthouse in Charleston, West Virginia on

March 1, 2022 at 11:00 AM

the following described real estate, together with its improvements, easements and appurtenances thereunto belonging, situate in St Albans District, Kanawha County, West Virginia, and more particularly described as follows:

Land situated in the City of Saint Albans in the County of Kanawha in the State of WV

All of that certain lot of land, together with the appurtenances thereunto belonging, situate in the City of St. Albans, Kanawha County, West Virginia, being all of Lot No. 2, Section 10 as shown upon a map entitled "Plat of Walnut Hills Estates Subdivision Section No. 10 in St. Albans, W. Va.", dated July [illegible], made by Roy A. Koch, R.P.E., of record in the Office of the Clerk of the County Court of Kanawha County, West Virginia, in Photostatic Map Book 22, at pages 64 and 65

The property address and tax parcel identification number listed are provided solely for informational purposes.

Commonly known as: 2309 S Walnut Dr, Saint Albans, WV 25177

At the time of the execution of the Deed of Trust, this property was reported to have an address of: 2309 S Walnut Dr, Saint Albans, WV 25177

The referenced real estate will be conveyed with no covenants of warranty, and subject to all covenants, restrictions, easements, rights of way and reservations which may be a matter of record in the aforesaid Clerk's office or visible upon the ground, all prior liens and encumbrances including, without limitation, liens for real estate taxes, incinerator, sanitary and sewer charges. The purchaser at the sale shall be responsible for paying the recording costs and also the tax on the privilege of transferring real property (the cost of the tax stamp to be affixed to the deed). The purchaser shall be responsible for payment of all real estate taxes.

The subject property will be sold in "AS IS" condition. The Substitute Trustee shall be under no duty to cause any existing tenant or person occupying the subject property to vacate said property.

TERMS: $5000(.00) in cash and/or certified funds as deposit at the time of sale with the balance due and payable within 30 days of the day of sale.

FEDERAL TAX LIEN: In the event that there are Federal Tax Liens against the property, the United States would have the right to redeem the property within a period of 120 days from the date of such sale or the period allowable for redemption under local law, whichever is longer.

Pursuant to the Deed of Trust, the Trustee may postpone the sale by public announcement at the time and place designated or by posting a notice of the same, and act by agent in the execution of the sale. The parties secured by the Deed of Trust reserve the right to purchase the property at such sale.

ADVERTISEMENT FOR BIDS

UNION PUBLIC SERVICE DISTRICT KANAWHA COUNTY, WEST VIRGINIA

CRANE TRUCK (VENDOR BID)

General Notice

Union Public Service District (Owner) is requesting Bids for the construction of the following Project:

Crane Truck (Vendor Bid) 020-10159

Bids for the construction of the Project will be received at the office of **The Thrasher Group, Inc. located at 300 Association Drive, Charleston, Kanawha County, West Virginia 25311,** until **Thursday, February 17, 2022 at 2:00 pm** local time. At that time the Bids received will be **publicly** opened and read.

The Project includes the following Work:

Furnish and deliver to the Union Public Service District, one (1) crane truck with all necessary appurtenances as indicated in the specifications.

Bids are requested for the following Contract: **Crane Truck (Vendor Bid)**

The Work will be completed and ready for final payment within 150 days after the date when the Contract Times commence to run.

Obtaining the Bidding Documents

Information and Bidding Documents for the Project can be found at the following:

The Issuing Office for the Bidding Documents is:

**The Thrasher Group, Inc
300 Association Drive
Charleston,
West Virginia 25311**

Bidding Documents may be downloaded from the designated website. Prospective Bidders are urged to register with the designated website as a plan holder, even if Bidding Documents are obtained from a plan room or source other than the designated website in either electronic or paper format. The designated website will be updated periodically with addenda, lists of registered plan holders, reports, and other information relevant to submitting a Bid for the Project. All official notifications, addenda, and other Bidding Documents will be offered only through the designated website. Neither Owner nor Engineer will be responsible for Bidding Documents, including addenda, if any, obtained from sources other than the designated website.

Prospective Bidders may obtain or examine the Bidding Documents at the Issuing Office on Monday through Friday between the hours of **8:00 am to 5:00 pm,** and may obtain copies of the Bidding Documents from the Issuing Office as described below. Partial sets of Bidding Documents will not be available from the Issuing Office. Neither Owner nor Engineer will be responsible for full or partial sets of Bidding Documents, including addenda, if any, obtained from sources other than the Issuing Office.

Printed copies of the Bidding Documents may be obtained from the Issuing Office by paying the amount of each set listed below.

Bidding Documents may be purchased from the Issuing Office during the hours indicated above. Cost does not include shipping charges. Upon Issuing Office's receipt of payment, printed Bidding Documents or electronic documents will be transmitted to the prospective Bidder. The shipping charge amount will depend on the shipping method requested. Bidding Documents are available for purchase in the following formats:

• Bidding Documents printed as hard copy full-size drawings and hard copy specifications are available for **$25.00** per set

Amounts paid are not subject to refund.

Partial sets of Bidding Documents will not be available from the Issuing Office. Neither Owner nor Engineer will be responsible for full or partial sets of Bidding Documents, including Addenda if any, obtained from sources other than the Issuing Office.

Bidding Documents also may be examined at:

Union Public Service District
5310 Washington St West
Cross Lanes, WV

The Thrasher Group, Inc
300 Association Drive
Charleston,
WV 25311

Contractor's Association of WV
2114 Kanawha Boulevard East
Charleston,
WV 25311

A two envelope system will be used.

Envelope No. 1 must have the following information presented on the front:

Name and address of Bidder

Bid on Contract: Crane Truck (Vendor Bid)

Received by the Union Public Service District

Envelope No. 2 labeled "Bid Proposal" shall also be placed inside of Envelope #1.

Envelope No. 1 will be opened first and the Bid Opening Requirement items checked for compliance as outlined on the Bid Opening Checklist on page BOR - 1 of these contract documents. If such documents are found to be in order, Envelope No. 2 "Bid Proposal" will then be opened and will be publicly read aloud. If the documents required to be contained in Envelope No. 1 are not in order, Envelope No. 2 "Bid Proposal" will not be opened and the Bid will be considered non-responsive and will be returned to the Bidder.

A bidder may not withdraw his bid for a period of ninety (90) days after the date set for the opening of bids.

Bids shall be accompanied by a certified check or bid bond payable to Union Public Service District in an amount equal to five percent (5%) of the base bid.

Contractor is required to provide the Drug Free Workplace Certification in accordance with WV Code 21-1D-5

All Bidders are required to have a West Virginia Contractor's License per Section §21-11-11 of the West Virginia Code.

Pre-bid Conference

A pre-bid conference for the Project will not be held.

Instructions to Bidders

For all further requirements regarding bid submittal, qualifications, procedures, and contract award, refer to the Instructions to Bidders that are included in the Bidding Documents.

LC 123970
02/04,11/2022

TRUSTEE'S SALE OF VALUABLE REAL ESTATE

The undersigned Substitute Trustee, by virtue of the authority vested in it by that certain Deed of Trust dated August 12, 2005, and duly recorded in the Office of the Clerk of the County Commission of Kanawha County, West Virginia, in Deed of Trust Book 3,774, at Page [illegible], William P. Dean did convey unto D. Kevin Moffatt, Trustee, certain real property described in said Deed of Trust, and the beneficiary has elected to appoint Pill & Pill, PLLC as Substitute Trustee by a Substitution of Trustee recorded in the aforesaid Clerk's Office; and default having been made under the aforementioned Deed of Trust, and the undersigned Substitute Trustee having been instructed by the secured party to foreclose thereunder, will offer for sale at public auction at the front door of the Kanawha County Courthouse, in Charleston, West Virginia, on

February 21, 2022 at 8:20 AM

The following described real estate, with its improvements, easements and appurtenances thereunto belonging, situate in the Jefferson District, Kanawha County, West Virginia, and more particularly described as follows:

All that certain lot, tract or parcel of land, together with the improvements thereon and the appurtenances thereunto belonging, situate in Jefferson District, Kanawha County, West Virginia, within that area commonly known as "Indian Head" and being known as Lot 6, Block 2, Indian Head, as set out and designated on a map of record in the Office of the Clerk of the County Commission of Kanawha County, West Virginia, in Photostatic Map Book 26, at Pages 52-53.

At the time of the execution of the Deed of Trust, this property was reported to have a mailing address of 12 Geronimo Drive, Saint Albans, WV 25177.

AND BEING the same real estate which was conveyed to William P. Dean by Deed dated August 11, 2005, from Joyce M. Connolly, and recorded in the Office of the Clerk of the County Commission of Kanawha County, West Virginia, in Deed Book 2[illegible], at Page 353.

The above-described property will be sold subject to any covenants, restrictions, easements, leases, and conditions of record, and subject to any unpaid real estate taxes.

The subject property will be sold in "AS IS" condition. The Substitute Trustee shall be under no duty to cause any existing tenant or person occupying the subject property to vacate said property.

TERMS: Ten percent (10%) of the purchase price as a cash deposit with the balance due and payable within 30 days of the day of sale.

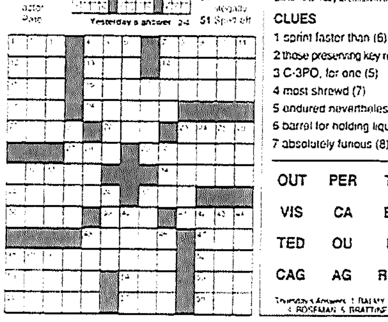
Yesterday's answer 2-4



JUMBLE

THAT SCRAMBLED WORD GAME
By David L. Hoyt and Jeff Knurek

Unscramble these Jumbles, one letter to each square, to form four ordinary words.

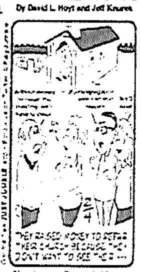
THHCI

TAESU

MRRPEI

PRISLA

©2022 Tribune Content Agency, LLC
All Rights Reserved.



Now arrange the circled letters to form the surprise answer, as suggested by the above cartoon.

(Answers tomorrow)

Yesterday's Jumbles: FLOSS CRAZY INTAKE OCTANE
Answer: The bird had trouble seeing the window and would try to remember to — STAY CLEAR OF IT

7 LITTLE WORDS

Find the 7 words to match the 7 clues. The numbers in parentheses represent the number of letters in each solution. Each letter combination can be used only once, but all letter combinations will be necessary to complete the puzzle.

CLUES — SOLUTIONS
1 sprint faster than (6)
2 those preserving key records (10)
3 C-3PO, for one (5)
4 most shrewd (7)
5 endured nevertheless (9)
6 barrel for holding liquids (4)
7 absolutely furious (8)

KANAWHA COUNTY SOLID WASTE AUTHORITY

Meeting Agenda: March 15, 2022

I. **Call to Order**

II. **Minutes:** February 15, 2022

III. **Public Comment (Limit of 3 Minutes)**

IV. **Reports**

- Day-to-Day Operations and Safety Report – David Armstrong
- Financial Report – David Armstrong

V. **Old Business**

- Cardboard / Mixed Paper / Plastic Update
- Job Description for Executive Director - Approval
- 5-year update to the Kan. Co. SWA Comprehensive Plan including the required public meetings in 2022 - Nicole Hunter - SWMB

VI. **New Business**

- Discussion regarding 3 quotes for CPA/Grants Services
- Discussion regarding the financials of the SWA, including the immediate need of payroll and grant reporting. Debra K. Holmes, CPA, has handle Bookkeeping, Grants, etc. for the KCSWA since John Luonis' departure. Her hourly rate is $50 per hour
- Poca Valley Bank signature cards, account access – PVB Rep
- Discussion regarding timeline to hire a new director
- Approval for Chairwomen Summers to sign the final grant report for submission to DEP. If the grant is not submitted by March 31, 2022, the penalty is a 2

year suspension for applying for grants.

- Executive Session to discuss any personnel matter

VI. **Agenda Setting** (for next Meeting)

VIII. Adjournment

Kanawha County Solid Waste Authority

March 15, 2022

Board Members Present:

David Armstrong, Board Member
Kay Summers, Chairwoman
Diana Haid, Board Member
Gerald Burgy, Vice-Chairman

Others Present:

Nicole Hunter, SWMB
Debra Holmes, CPA
Beverly Hobbs, Employee
Pam Carte, KCOEM

Call to Order:

10:00 am by Kay Summers

Minutes:

Motion made by Gerald Burgy to approve the minutes from the February 15, 2022, meeting. Diana Haid seconded. Motion carried. Minutes approved.

Public Comment: None

Day to Day Operations and Safety Report:

David Armstrong announced that John Luoni has retired, and his contract has come to an end.

Mr. Armstrong welcomed Nicole Hunter from the Solid Waste Management Board to the meeting.

David Armstrong reported that repairs were needed on one of the roll-off trucks. The repairs, totaling $742.00, were completed by Hutch's Wrecker Service.

KCSWA has a grant partnership with Lincoln County. They have secured another roll-off container and placed it in the Ranger area of Lincoln County along with two other locations at the Lincoln County Courthouse and MacCorkle Road. KCSWA is receiving $175.00 per pull for those.

Discussion regarding SWA employee pay periods and going to direct deposit. Poca Valley Bank charges a monthly direct deposit fee of approximately $20.00. David Armstrong asked that the discussion be tabled until the April 2022 meeting, to give him and Debra time to research and get the actual costs together. David said the representative from Poca Valley Bank was supposed to be at today's meeting to discuss the fees associated with changing to direct deposit but was unable to attend. David Armstrong will meet with Poca Valley Bank and get all the documentation needed for the employees to sign up for direct deposit. The Board would like to have this completed by May 2022.

David Armstrong reported that no materials have been sold since the last board meeting. SWA is building loads again. Currently KCSWA is 13 bales short for a mixed plastics load, 20 baies short for cardboard and needs around 30 more bales for mixed paper. The drop site has seen a huge increase in cars since the weather has broken in the last couple of weeks.

David Armstrong reported that he met with the director from the Putnam County Solid Waste Authority and said they had no place to take their plastics. They take their cardboard and mixed paper to Cash In. Right now, Cash In is not offering them an option for their plastics. They discussed the possibility of partnering with us to handle their plastics.

Fayette County has given KCSWA permission to use their roll off containers that are being stored on our lot.

David Armstrong reported that KCSWA received 7.5 cents for plastic. Mixed paper and cardboard are down slightly to $200.00 a ton.

Financial Report:

David Armstrong presented a copy of the financial report for review. At the end of February, KCSWA had $85,056.40 in the General Operating Account. This is a net gain of $19,686.07, primarily due to the $25,000.00 bank transfer from the WV DEP-REAP grant account. Debra Holmes said that she has looked at the past financial reports and will start breaking down by accounts so the report will be easier to understand.

Diana Haid made a motion to accept the financial report, seconded by Gerald Burgy. Motion carried. Financial report approved.

Old Business:

Diana Haid presented draft copies of the Job Description and Interview Questions for the Executive Director position. Ms. Haid reviewed the Job Description with the Board. A few changes were made to the draft, such as changing the verbiage to oversees payroll processes and tax submission instead of processes payroll and tax submission. Ms. Haid will also update job description to include training and education activities, public outreach, any statutory requirements as well as assisting Board with updating plans and by-laws. David Armstrong would like to have the job announcement posted after the April Board Meeting. Kay Summers said she would like to permanently hire a CPA to insure a segregation of duties.

Motion made by Gerald Burgy to accept the Executive Director Job Description and interview questions as presented, with corrections, David Armstrong seconded. Motion carried. Executive Director Job Description and Interview Questions approved.

The public hearing for the 5-year update to the KCSWA Comprehensive Plan began at 10 a.m. Kay Summers asked if there were any public comments about the 5-year update to the KCSWA Comprehensive Plan. No public comments were made. Nicole Hunter, SWMB Environmental Resource Specialist II, recommended that the Board hold their second public hearing after the new Executive Director is hired.

Nicole Hunter provided the following dates to the Board:

REAP Financial Comprehensive Report due (to close out last year's grant) by March 31, 2022
SWMB Grant Application due by April 30, 2022
REAP Rec. Grant due by July 1, 2022

Nicole Hunter stated that the SWMB Grant ($25,000.00) can include anything the SWA needs to operate such as computers, computer software, time clock software, etc. Grant application will need to be submitted electronically through Oasis along with a mailed paper copy.

New Business:

David Armstrong handed out three quotes for CPA services. Mr. Armstrong explained that Debra Holmes' quote was the only one that included grant reporting. Ms. Holmes has handled the bookkeeping and grants for KCSWA since John Luoni's departure. Ms. Holmes hourly rate is $50 per hour.

Motion made by Gerald Burgy to accept Debra Holmes' proposal as CPA for the KCSWA, seconded by David Armstrong. Motion carried. Debra Holmes' CPA proposal accepted.

David Armstrong explained that John Luoni is listed as a signatory on the KCSWA Poca Valley Bank accounts. The KCSWA Board needs to vote to remove Mr. Luoni from all Poca Valley accounts he is listed on, pertaining to the KCSWA. Once a copy of the minutes is received by Poca Valley Bank, they will remove him from the accounts and prepare new signature cards for the Board to sign. John Luoni also has access to the KCSWA online bank accounts.

David Armstrong made a motion to remove John Luoni from all accounts associated with KCSWA, Gerald Burgy seconded. Motion carried. John Luoni no longer has access to any KCSWA accounts with Poca Valley Bank.

Motion made by David Armstrong to allow Debra Holmes online access to the KCSWA Poca Valley Bank accounts and sign proper documentation with Poca Valley Bank, Diana Haid seconded. Motion carried. Debra Holmes has been approved to access KCSWA online accounts with Poca Valley Bank.

David Armstrong made a motion for Kay Summers to sign the final REAP Grant report for submission to the DEP and sign any additional paperwork that may be related to this grant, Gerald Burgy seconded. Motion carried. Kay Summers signed the final REAP Grant Report, due by March 31, 2022.

Meeting adjourned at 11:15 a.m.

NOTICE OF REQUEST FOR ENGINEERING SERVICES

The **City of Montgomery,** located in Fayette County, West Virginia is in the process of obtaining the services of a consulting engineer for a project involving design & construction of a Regional Recreation Center in the City. The consultant will be required to (1) prepare preliminary engineering report(s), (2) design and prepare construction drawings, bid specifications and bid documents, (3) evaluate bids received and make recommendation of award, (4) monitor and inspect construction activities to insure compliance with plans and specifications, (5) review and approve contractor's pay estimates and (6) any other services needed by the City for the implementation of the project(s). The selected firm shall be retained throughout all phases of the project(s). All consultants interested in being considered must submit a proposal detailing qualifications, technical expertise, management and staffing capabilities and related prior experience.

The purpose of the competitive process is to objectively select the consultant who will provide the highest quality of service at a realistic fee. Accordingly, technical qualifications and experience will be weighed heavily.

Please submit five (5) copies of all requested information prior to 4:00 pm on March 27, 2023, to the attention of:

The City of Montgomery
Attn: Angela Tackett
321 4th Avenue
Montgomery, WV 25136

Please also forward a copy of your proposal via e-mail to ltaylor@reg4wv.org.

For questions or additional information, please contact Angela Tackett at (304)442-5181

It is the responsibility of the respondent to ensure the receipt of the proposal by the date specified.

Attention is directed to the fact that the project may be undertaken with a combination of State and/Federal funds and all work must be performed in accordance with all applicable laws, rules and regulations.

The selected firm will be required to comply with the Uniform Relocation Act, Title VI of the Civil Rights Acts of 1964, President's Executive Order No. 11246, Section 109 of the Housing and Urban Development Act of 1974, Section 3 of the House and Urban Development Act of 1968, Conflict of Interest Statement and Access to Records provisions. The selected firm must also fully comply with the Minority/Women-Owned Business Enterprise and Affirmative Action requirements. If a portion of the contract is subcontracted, then "positive efforts" must be made to subcontract to Minority/Women-Owned Businesses. This shall be done in compliance with the six (6) affirmative steps as outlined in 40 CFR 33.240.

The project sponsor will afford full opportunity to women-owned and minority business enterprises that submit a show of interest in response to this request and will not discriminate against any interested firm or individual on the grounds of race, creed, color, sex, age, handicap or national origin in the award of this contract.

This contract will be awarded to the responsible offeror whose proposal is within the competitive range and determined to be the most advantageous to the Project Sponsor, price and other factors considered.

NOTICE OF REQUEST FOR APPRAISAL SERVICES PROPOSAL

The **City of Smithers,** located in Fayette County, West Virginia, is requesting proposals from qualified firms to provide certified appraisal services for its Integrated Trail System project. Procurement of said services shall be in accordance with 2CFR200, specifically §200.459. Contracts are to be awarded on a per/hour rate with a ceiling amount. All appraisers interested in being considered for this project must submit a proposal detailing qualifications, technical expertise, and related prior experience.

The objective of the competitive process is to objectively select an appraiser who will provide the highest quality of service at a realistic fee. Accordingly, technical qualifications and experience will be weighed heavily.

Please mail the requested information to the City of Smithers, PO Box 489, Smithers WV 25186, no later than 4:00 pm on March 17, 2023. Please also email a copy to ltaylor@reg4wv.org. It is the responsibility of the respondent to ensure the receipt of the proposal by the date and time specified.

If there are any questions or additional information needed, please contact Smithers Mayor Anne Cavalier at (304)442-5282.

The City of Smithers has received a Congressionally Directed Spending Award, specifically through the US Department of Housing & Urban Development, to fund the project.

The selected firm will be required to comply with all regulations including, but not limited to Title VI of the Civil Rights Act of 1964, Executive Order 11246 and the provisions of Executive Order No. 10925 as included therein, Section 109 of the Housing and Urban Development Act of 1974, Conflict of Interest Statement of Access to Records provision.

The proposed work to be performed may be subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u (Section 3). The purpose of Section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by Section 3, shall to the greatest extend feasible, be directed to low-and very low-income persons, particularly persons who are recipients of HUD assistance for housing.

The project sponsor will afford full opportunity for disadvantaged business enterprises to submit a show if interest in response to this invitation and will not discriminate against any interested firm or individual on the grounds of race, creed, color, sex, age, handicap or national origin in the contract award.

This contract will be awarded to the responsible offerer whose proposal is within the competitive range and determined to be the most advantageous to the project sponsor, price and other factors considered.

Kanawha County Solid Waste Authority
Comprehensive Litter and Solid Waste Control Plan
Public Hearing #2
March 31, 2023

Individuals Present: Nicole Hunter, Executive Director

Ms. Hunter announced that this hearing had been properly advertised in accordance with WV Code Rules §54-3-7. A Class II legal ad was published in the Charleston Gazette newspaper on Friday, February 24, 2023 with written comments to be accepted until Monday, April 10, 2023. Copies were placed in all required locations for the public to review prior to the public hearing. The purpose of this hearing was to receive any comments or suggestions from the public regarding the updates to the Kanawha County Comprehensive Litter and Solid Waste Control Plan. At 10:02, Director Hunter opened the public hearing to anyone interested in speaking.

With no member of the public appearing for the public hearing, no comments were received.

Public hearing was closed as of 11:07 am.

Respectfully Submitted,

Nicole Hunter
Executive Director
